SKILLS

Backend Technologies:

Python – Advanced (Certified)
Node.js – Advanced (Certified)
Java – Advanced (Certified)
Golang – Intermediate (Certified)

Frontend Technologies:

JavaScript – Advanced (Certified)
HTML – Advanced (Certified)
CSS – Advanced (Certified)

SQL Databases:

PostgreSQL – Advanced
MySQL – Advanced
Oracle – Advanced
SQL Server – Intermediate

NO SQL Databases:

DynamoDB – Intermediate
MongoDB – Intermediate

Frameworks:

Fast API – Advanced (Certified)
Spring Boot – Advanced
React – Intermediate (Certified)
Angular – Intermediate
Express – Intermediate
Flask – Intermediate
Nestjs – Intermediate

PROFESSIONAL SUMMARY

I have been a Systems Engineer since 2000, I have a couple of diplomas in Information Technology and Higher Education, I also have a master's degree in Intelligent Flexible Systems. I have continuously taken refresher, learning and training courses both in person and online throughout my more than 20 years of professional life.

I have been a backend developer for more than 15 years, the programming languages that I know most deeply and that I have a lot of experience are Java, Python and JavaScript, I also know Shell Scripting, Bash Scripting, C and C++, I have basic knowledge of Go lang, I also know some Frontend languages such as HTML and CSS.

I have worked as DevOps and Cloud Computing in AWS, using components such as EC2, ECR, ECS, LAMBDA SERVICES, API GATEWAY, S3, SQS, RDS, elastic IPs and load balancers and others. I also have a lot of experience with Docker and some experience using Kubernetes. I have developed task automations using Shell Scripting and Python. I also have some experience with GCP and Azure.

I have a lot of experience in administration and configuration of Linux operating systems in their Debian, Ubuntu and CentOS versions. I have developed several automations and integrations using Shell Scripting and tools specific to the Unix/Linux environment.

As for databases, MySQL and PostgreSQL are the ones I master and have worked with for most of my career, some non-SQL databases such as MongoDB and DynamoDB, I have participated in some projects with SQL Server, and I have worked as an ORACLE DBA and server administrator.

I have been a professor at different universities, I have been invited to advise undergraduate theses, I have also worked as a trainer in programming languages and tools such as JavaScript, Node.js, MySQL, Linux, PostgreSQL, Oracle and Java in different institutes.

Methodologies:

SCRUM – Advanced

UML – Advanced

DevOps:

AWS – Advanced (Certified)

Docker – Advanced (Certified)

GCP – Intermediate (Certified)

CircleCI – Intermediate

Kubernetes – Intermediate (Certified)

Terraform – Advanced (Certified)

Jenkins – Intermediate

AI Tools:

Claude – Advanced

Gemini – Advanced

GitHub Copilot – Advanced

Cursor – Intermediate

Others:

Linux – Advanced (Certified)

Unix – Intermediate (Certified)

JBoss – Intermediate

Shell Scripting – Advanced
(Certified)

Bash Scripting – Intermediate
(Certified)

GIT – Advanced

C – Intermediate

C++ – Advanced (Certified)

Prompting – Advanced

LANGUAGES

Spanish: Native

English: Advanced Reading, Writing and Comprehension. Intermediate - Advanced level conversation and I can hold conversations without problems, I have been working with American companies since 2016.

SALARY INFORMATION USD

Current rate as a freelancer:

Range 20 – 25 USD per hour

EDUCATION

Postgraduate Education 02/2002 – 11/2003 – 03/2007 – 07/2007

2002: Diploma in Information Technology

Bolivian Catholic University

2002 – 2003: Master's in mathematical and computer engineering Mention Intelligent Flexible Systems.

Bolivian Catholic University

2007: Diploma in Higher Education and Research.

Universidad Mayor de San Andrés UMSA

University Education 02/1994 – 12/1999

1994 – 1996 E.M.I. (Military School of Engineering) La Paz, Bolivia

1997 – 1999 Loyola University La Paz, Bolivia
Bachelor of Systems Engineering

WORK EXPERIENCE

CONSULTING, CONTRACTOR AND FREELANCER:

APPLAUDO, IA BACKEND DEVELOPER 10/2025 – 02/2026

Backend Developer: Python, Fast API, PostgreSQL, using AI tools such as Claude and GitHub Copilot

Developed activities:

- *Development of modules for the company's AI application's REST API using DDD, Clean Code, and Architecture*
- *Implementation of various modules based on Vibe Coding*

BINARIA CONSULTORES, MICROSERVICES

DEVELOPMENT 07/2025 – 12/2025

Backend Developer: Python, Fast API, MySQL, AWS, Docker, Lambda Services. ERP Application

Developed activities:

- *Development of REST APIs under a microservices architecture with Python and MySQL database. Docker and Lambda Services on AWS*
- *Implementation of a REST API to provide various services to the company's CORE application*

DETESIM, AB-INVEB PROJECT 02/2024 – 07/2024

Backend Developer: JAVA, Spring Boot, SQL SERVER, Azure, Docker, Kubernetes. ERP App

Developed activities:

- *Development of REST API under microservices architecture with JAVA and SQL SERVER database. Docker and Kubernetes on*

Azure.

- *Implementation of an automated process for calling microservices. Development in Shell Scripting, Python. Docker and Kubernetes on Azure*

KOOMBEA, COLOMBIA 09/2022 – 12/2023

Senior AWS DevOps

Developed activities:

- *Creation of environments and infrastructure with Terraform (IaC).*
- *Migration of MySQL database from 5.7.X to 8.0.X. in AWS RDS instances*
- *Create and deploy MySQL databases on AWS RDS instances using Terraform*
- *AWS infrastructure support for multiple clients*
- *Process automation with Shell Scripting and Python.*
- *Extracting AWS logs with Python*
- *JIRA ticket automation with Python*
- *ETL and Machine learning implementation on SageMaker*

SIMETRIK, COLOMBIA 03/2022 – 08/2022

Software Architect: AWS, Python, PostgreSQL. Financial App

Developed activities:

- *Implementation of new architectures on AWS for the financial application.*
- *Creation of test environments for new features and changes in the application using Terraform*
- *Improvements in the design of application processes.*

NEXTGO, USA 12/2021 – 06/2022

Backend Developer: AWS, Terraform, Docker, Node.js, PostgreSQL. Health App

Developed activities:

- *Development of REST API with NODE.JS and MySQL and PostgreSQL databases.*
- *Development of REST API with PYTHON – FLASK and MySQL and PostgreSQL databases*

AVETTA, USA 05/2021 – 09/2021

Backend Developer: Perl, MySQL. ERP app

Developed activities:

- *Development of functionalities in PERL for the company application*
- *Cross QA quality control for modules from other developers*

REAL DATA – GIZ 06/2020 – 10/2020

Full Stack Developer: AWS, Node.js, MySQL. BI App

Developed activities:

- *REST API type backend development with NODE.JS and MySQL database.*
- *Frontend development with REACT.*
- *QA quality control of the developed software*

KPLIAN – EFFEX, BOXTRIBE USA 05/2018 – 03/2020

Backend Developer: AWS, Node.js, MySQL. ERP App

Developed activities:

- *REST API type backend development with NODE.JS and MySQL database.*
- *Migration of the company application made in ORACLE 9i to NODE.JS.*
- *Frontend development with REACT.*
- *QA quality control of the developed software*

FUNDACIÓN TUTATOR USA 10/2016 – 02/2018

Full Stack Developer: Angular, Node.js, MySQL.

Government App

Developed activities:

- *REST API type backend development with NODE.JS and MySQL database.*
- *Frontend development with ANGULAR*
- *QA quality control of the developed software*

SDIBO INC. – CONNOTATE USA 01/2016 – 06/2016

Data Analyst: Java, Elastic Search, Power BI. ERP App

Developed activities:

- *QA quality control of the software developed in JAVA.*
- *Monitoring and creating statistics of software errors and failures.*

SWISSCONTACT 07/2013 – 07/2014

Full Stack Developer: Java, MySQL. Government App

Developed activities:

- *Web application type backend development with JAVA beans, Servlets and MySQL database.*
- *Frontend development with JSP*
- *QA quality control of the developed software*

AMLC GROUP 04/2013 – 07/2014

Full Stack Developer: Java, MySQL. Financial App

Developed activities:

- *Web application type backend development with JAVA beans, Servlets and MySQL database.*
- *Frontend development with JSP*
- *QA quality control of the developed software*

MANKERI SRL 12/2012 – 03/2013

Full Stack Developer: Java, MySQL. ERP App

Developed activities:

- *Web application type backend development with JAVA beans, Servlets and MySQL database.*
- *Frontend development with JSP*
- *QA quality control of the developed software*

AMLC GROUP 10/2012

ML Developer: ETL Pentaho, MySQL, SQL SERVER.

Financial App

Developed activities:

- *Development of automation with Shell Scripting*
- *Pentaho*

ASPA SRL 07/2012 – 09/2012

Full Stack Developer: Java, MySQL. CRM App
Developed activities:

- Web application type backend development with JAVA beans, Servlets and MySQL database.
- Frontend development with JSP
- QA quality control of the developed software

KISIMIRA GROUP SRL 05/2012 – 06/2012
Linux Administrator:
Developed activities:

- Migration of application servers from GLASFISH to JBOSS

SOLTUX SRL 04/2012 – 05/2012
Linux Administrator:
Developed activities:

- PostgreSQL database migration from 8.3 to 9.1

TARGET SOFTWARE BOLIVIA 06/2011 – 11/2011
Technical Support ORACLE.

COFADENA 09/2009 – 12/2009
Full Stack Developer: Java, MySQL. Government App
Developed activities:

- Web application type backend development with JAVA beans, Servlets and MySQL database.
- Frontend development with JSP
- QA quality control of the developed software

PROCOSI 06/2008 – 12/2008
Full Stack Developer: Java, MySQL. Government App
Developed activities:

- Web application type backend development with JAVA beans, Servlets and MySQL database.
- Frontend development with JSP
- QA quality control of the developed software

PRESTAMO SEGURO S. A. MONETERREY - NUEVO LEON – MEXICO 06/2008 – 01/2009
Full Stack Developer: Java, MySQL. Financial App
Developed activities:

- Web application type backend development with JAVA beans, Servlets and MySQL database.
- Frontend development with JSP
- QA quality control of the developed software

VICE. DEL TESORO Y CREDITO PÚBLICO 04/2008 – 06/2008
Full Stack Developer Delphi, MySQL. Government App

GOURMET S. A. 02/2008 – 10/2008
Full Stack Developer: Java, MySQL. CRM App
Developed activities:

- Web application type backend development with JAVA beans, Servlets and MySQL database.
- Frontend development with JSP
- QA quality control of the developed software

TECNOFARMA 11/2007 – 05/2008

Full Stack Developer: Java, MySQL. ERP App

Developed activities:

- *Web application type backend development with JAVA beans, Servlets and MySQL database.*
- *Frontend development with JSP*
- *QA quality control of the developed software*

VIPFE 07/2007 – 09/2007

Full Stack Developer: Java, MySQL. Government App

Developed activities:

- *Web application type backend development with JAVA beans, Servlets and MySQL database.*
- *Frontend development with JSF*
- *QA quality control of the developed software*

VICEMINISTERIO DE MEDIANA, GRAN EMPRESA E INDUSTRIA – COOPERACIÓN DANESA (EMBAJADA REAL DE DINAMARCA) 05/2007 – 10/2007

Full Stack Developer: Java, MySQL. Government App

Developed activities:

- *Web application type backend development with JAVA beans, Servlets and MySQL database.*
- *Frontend development with JSP*
- *QA quality control of the developed software*

SUPER DE HIDROCARBUROS 11/2005 – 01/ 2006

Full Stack Developer: Java, MySQL. Government App

Developed activities:

- *Web application type backend development with JAVA beans, Servlets and MySQL database.*
- *Frontend development with JSP*
- *QA quality control of the developed software*

TERRASUR y RENACER 04/2005 – 09/2005

Full Stack Developer: Java, MySQL. CRM App

Developed activities:

- *Web application type backend development with JAVA beans, Servlets and MySQL database.*
- *Frontend development with JSP*
- *QA quality control of the developed software*

CHIKYPOLLO 03/2005 – 09/2005

Full Stack Developer: Java, MySQL. ERP App

Developed activities:

- *Web application type backend development with JAVA beans, Servlets and MySQL database.*
- *Frontend development with JSP*
- *QA quality control of the developed software*

FAO – ONU 09/2004 – 06/2005

Full Stack Developer: Java, MySQL. Government App

Developed activities:

- *Web application type backend development with JAVA beans, Servlets and MySQL database.*
- *Frontend development with JSP*

-
- QA quality control of the developed software
- AFP – “Futuro de Bolivia” 12/2002 – 04/2003
- Full Stack Developer: Java, MySQL. Government App*
- Developed activities:*
- *Creating Stored Procedures, Forms and Reports with ORACLE 9i*
