ARTIFICIAL INTELLIGENCE

- LLMs & Prompting – Advanced
- Vibe Coding – Specialist
- Claude / Gemini – Advanced
- GitHub Copilot – Advanced
- Cursor – Intermediate
- ML / Predictions – Advanced

BACKEND

- Python – Advanced
- FastAPI – Advanced
- Node.js – Advanced
- Java / Spring Boot – Advanced
- Go – Intermediate

DATABASES

- PostgreSQL – Advanced
- MySQL – Advanced
- Oracle – Advanced
- MongoDB / DynamoDB – Intermediate

CLOUD & DEVOPS

- AWS – Advanced
- Docker – Advanced
- Terraform – Advanced
- Kubernetes – Intermediate
- GCP / Azure – Intermediate
- Linux / Shell – Advanced

ARCHITECTURE

- Clean Architecture /DDD
- REST Microservices
- SOLID · SCRUM · UML

PROFESSIONAL PROFILE

Systems Engineer with over 25 years of experience and a Master's in Intelligent Flexible Systems. Software Architect and backend developer specialized in integrating Artificial Intelligence into enterprise and government solutions. Founder of **BearSoft**, a software and data-analytics consultancy. I combine a strong foundation in Python, FastAPI, AWS and Clean Architecture with mastery of LLMs, prompt engineering and AI-assisted development (Vibe Coding).

BearSoft — SmartDecisions

- ◆ Founder of BearSoft, a software development and data-analytics consultancy.
- ◆ SmartDecisions: a commercial-intelligence and data-driven decision-making platform.
- ◆ Live demo and product available at bearsoft.com.bo

KEY SPECIALTIES

- ▶ Software Architect: solution design with Clean Architecture, DDD and microservices.
- ▶ Integration of LLMs and generative AI into business workflows and enterprise products.
- ▶ Vibe Coding specialist: fast, high-quality AI-assisted software development.
- ▶ Machine Learning applied to predictions and decision analytics.
- ▶ Corporate trainer in AI tools and prompting best practices.

FEATURED PROJECT — MINING ANALYSIS (MINISTRY OF MINING)

Design and development of **Mining Analysis**, a business-intelligence platform for the Ministry of Mining and Metallurgy. Built with **Python and FastAPI**, it integrates **Machine Learning models for predictions** on quotations and mining-sector variables, with institutional data integration (AJAM) and an ETL/BI – layer.

- ▶ Training of Ministry staff in the use of Artificial Intelligence tools.
- ▶ Infrastructure modernization, system stabilization and security-policy implementation.

EXPERIENCE — CONSULTING & FREELANCE

APPLAUDO — IA Backend Developer

10/2025 – 02/2026

Python · FastAPI · PostgreSQL · Claude · GitHub Copilot

- ▶ Development of REST API modules for the company's AI application under DDD and Clean Architecture.
- ▶ Implementation of modules through Vibe Coding.

BINARIA CONSULTORES — Microservices

07/2025 – 12/2025

Python · FastAPI · MySQL · AWS · Docker · Lambda

- ▶ REST API development with microservices architecture; Docker and Lambda on AWS.

DETESIM — Proyecto AB-INBEV

02/2024 – 07/2024

Java · Spring Boot · SQL Server · Azure · Docker · Kubernetes

- ▶ Microservices REST API; service-invocation automation with Shell and Python on Azure.

KOOMBEA (USA–Colombia) — Senior DevOps AWS

08/2022 – 01/2024

- ▶ Infrastructure as Code with Terraform; MySQL 5.7 to 8.0 migration on AWS RDS.
- ▶ Process automation and log extraction with Python; ETL and ML on SageMaker.

SIMETRIK (Colombia) — Software Architect

03/2022 – 08/2022

AWS · Python · PostgreSQL — financial application

- ▶ Design and implementation of new AWS architectures and process improvements.

Additional track record: NextGo, Avetta, Real Data–GIZ, KPLIAN/Effex, Fundación Tutor, SDIBO–Connotate, Swisscontact, AMLC Group, Mankeri, AFP Futuro — as Backend / Full-Stack Developer and DevOps for U.S. and Bolivian clients (2001–2022).

LANGUAGES

Spanish: Native
English: advanced reading and writing; intermediate-advanced conversation. Working with U.S. companies since 2016.

INSTITUTIONAL EXPERIENCE

- Ministry of Mining and Metallurgy (MMM)

02/2026 – 08/2026

Head of Information Systems — IT and AI projects.
- Pension Oversight & Control Authority (APS)

10/2020 – 01/2021

Head of Information Technology.
Background: Bolivian Stock Exchange, ILACO II Project (MAFP), ENTEL S.A. — DBA, server administration and development.

IT AUDITING

Independent IT audits under ISO 27000 and COBIT 5 methodology (2011–present): *Mutual La Paz, ACCL, El País, NUEVATEL, COMIBOL, EMTAGAS, FONDESIF, EPSAS, FPS, YPFB, Bolivian Stock Exchange, among others.*

TEACHING

Lecturer and trainer (Cognos, CEICAP, U. Central, U. Franz Tamayo, U. Loyola): *PostgreSQL, Java/J2EE, Node.js, Angular, MongoDB, Data Structures, Programming, Operating Systems and Compilers. Undergraduate thesis advisor.*

EDUCATION

- Masters in Intelligent Flexible Systems

2002 – 2003

Universidad Católica Boliviana
- Postgraduate Diploma in Information Technology

2002

Universidad Católica Boliviana
- Diploma in Higher Education & Research

2007

Universidad Mayor de San Andrés (UMSA)
- B.Sc. in Systems Engineering

1994 – 1999

E.M.I. and Universidad Loyola — La Paz, Bolivia
